Circumcision Discharge Instructions

1. Watch for bleeding—if bleeding occurs apply pressure and call office at (909) 629-5067
2. Original gauze should fall off by the next day, if it doesn't, then soak off with warm water. Continue to apply Vaseline with new 2x2 gauze pad for 2 to 3 days past each diaper change. After a few days, then just apply Vaseline.
3. Circumcision will take on a yellowish, white appearance as it is healing.
4. Healing should be completed in 7 to 10 days.
